DETAILED ACTION

Response to Arguments

Applicant's arguments filed 1/14/03 have been fully considered but they are not persuasive.

The applicant argues that the prior art does not teach the troubleshooting procedure. The examiner disagrees. Arjomand teaches how to execute a diagnostic application (abstract). Therefore, it is understood that the diagnostic application performs the troubleshooting procedure.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Arjomand (5,884,202) in view of Smith et al (5,931,877).

As per claims 2 and 3, Arjomand teaches a central maintenance computer system (figures 1 and 6); an onboard maintenance terminal (figure 1); the onboard maintenance terminal linking faults to maintenance documentation (columns 7-8). Arjomand does not teach this applied to an aircraft. However, Arjomand teaches the same for land vehicles. Therefore, it would have been obvious to one of ordinary skill in the art to implement what is old and well known for land vehicles to aircrafts in order to enhance the benefits of the aircrafts. Even though Arjomand does

not show how to collect maintenance information in real time; Smith does (column 12, lines 15-18). Therefore, it would have been obvious to one of ordinary skill in the art to combine both references in order to provide immediate support to the system.

Allowable Subject Matter

Claim 1 is allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
